To whom it may concern:

We (Penn House) want to remove the split rail fence in front of our building and replace it with a 4 foot chain link fence. The split rail fence is rotting and we decided to put up a chain link fence so people can not get in and leave donations out front when we are closed. Therefore we have a building that is much neater looking to the neighborhood and people that are driving by.

I hope that this will be approved by the city and we can continue improving the looks of our property.

Sincerely,

A handwritten signature in cursive script that reads "Linda Lassen".

To whom it may concern:

The employees of Penn House as me if it was OK with me to remove the privacy fence and put up a chain link fence as the old one was falling down.

I gave them my permission to do that in 2003 for that.

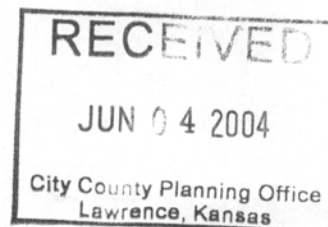

Thank You

Linda Hernes

To whom it may concern:

In August of 2003 we took down the fence on the north side of our building to replace it. The fence that we took down was a privacy fence that that was falling down due to rotten post and fence boards. We did not know that we had to get permission to remove and replace it. We did check with the neighbor whose yard it was connected to and they told us it was ok to take it down and replace it.

We replaced the privacy fence on the north side of the building with a 5 foot chain link fence.

Attached is a letter from the neighbor with approval to remove and replace.

We apologize for any inconvenience this has caused. We are trying to improve the looks of Penn House so that we look like the rest of the neighborhood.

Sincerely,

A handwritten signature in cursive script that reads "Linda Lassen".
