Re: sculpture at 19<sup>th</sup> & Barker roundabout

The Barker Neighborhood Association met on Sept 30 and unanimously agreed to accept your offer, made upon the recommendation of the Arts Commission, to install the sculpture, "The Mighty Steel Wedge", in our roundabout.

And, on behalf of our association, I would like to thank Chuck Soules, Director of Public Works, and Crystal Miles, Landscaping Supervisor, for attending our evening meeting. Chuck answered technical traffic questions about the roundabout. Crystal brought landscape designs for the roundabout and the traffic calming circle at 17<sup>th</sup> & New Hampshire. We requested two modifications, which she worked into her designs.

We appreciate your offer and invite you to proceed with the plantings and installation of the sculpture.

Regards,

Emily Wellman  
Chair, Barker Neighborhood Association
