Mr. Woolley -

(Request for handicap parking
at 1505 Vermont St.)

Just recently I had my side
walk to the street replaced with
a new walk and steps to make
it more convenient to get to
the Tlift bus when it comes to
pick me up or return me to my
home. I am an 86 year old lady
that walks with a cane and
I ride the Tlift for most of my
transportation needs and need
access to the walk. I have lived
in this home since 1946 - 58 years
and plan to live here as long
as possible. If you find it fit
to grant this request, it would
make it much easier for both
the Tlift driver and for me.
Thank you for taking this request
into consideration.

Sincerely -
Hazel Burger
