Dear Chief McSwain,

On July 14, 2004 the Board of Emergency Medical Services performed an inspection of Douglas County Fire and Medical. Inspections are conducted to ensure compliance with Kansas Administrative Regulations and Statutes. The following areas are reviewed: Operational and Medical Protocol, ambulances and equipment inspection, equipment list, garaging, call schedule, attendants certification cards, daily record of ambulance responses, and the service quality improvement program.

All areas of the inspection met or exceeded the minimum regulatory and statutory requirements. The ambulances were organized and well stocked. Chief Murray had all required documentation readily available and was very accommodating throughout the inspection. It is obvious you take great pride in providing quality emergency medical services to the citizens in your community. ✓

Enclosed is a certificate of recognition for an outstanding service inspection. If you have any questions or comments I can be reached at 785-291-3652 or by e-mail @ emsdc@ink.org. Thanks again for the pride you take in our industry.

Respectfully'

Dave Cromwell
