Re: Amy Summers *714 Alabama*
DOB 11/10/26

To Whom It May Concern:

Amy Summers is an elderly female who is blind and suffers from rheumatoid arthritis and pulmonary vein thrombosis. She relies upon caretakers for all of her needs. It is essential that they be able to park in front of her house when they pick her up for her doctors appointments, etc. I recommend that a no parking sign be placed in front of her house to ensure that there will always be a space available for her caretakers to park.

Thank you for your consideration.

Sincerely,

Joan Brunfeldt, M.D.

JB/sh
