Dear: Business tenant/property owner

The City is undertaking a project to remove the canopy on the West side of the buildings that you are either a tenant or owner of the property. All property owners received a letter and an access agreement outlining the project intent and were asked to sign and return that agreement. This project is currently still in the planning process with scheduling with Utilities and Contractors for demolition of the canopy, rerouting of the storm water and repair and or replacement of the sidewalk and ADA ramps is ongoing. We anticipate this project to begin around the middle to late part of June. We will be contacting each party independently during construction to limit the impact of accessibility on the West side during construction. Please feel free to contact me with any questions. Parking on the West side lot will also be impacted as construction equipment and personnel will be occupying many of the spaces. Furthermore, you should anticipate hearing directly from any utility that will be impacting your address during this project.

Best Regards

Jason Stowe
