Subject: July 17 City Commission Meeting

Dear Susan:

Thank you for speaking with me over the phone last month concerning the City Commission's discussion of extension approval for the property on Inverness and Clinton Parkway.

As you know the neighbors in this neighbor and I have been vigilant over many years concerning the way in which this site will be developed. While we are not against progress, but we wish to have our feedback considered.

While the letter you sent on June 8, 2018 seems to only be about the extension I would wish to reserve a time to *possibly* speak on behalf our my neighbors and myself if the developer would try to steer the discussion in another direction as the developer and landowner have not been transparent in the past.

Thanks so much for your consideration and I look forward to attending the meeting.

Sincerely,

Larry S. Grecian
