KU on Wheels		Aaron Quisenberry	aquisenberry@ku.edu

Committee Purpose: The ITS Update Steering Committee will guide the update to the ITS Regional ITS Architecture. The project website is <https://lawrenceks.org/mpo/its>.

ITS: ITS is the application of technologies and communications to improve the multimodal transportation system in an area. ITS includes detection systems and cameras for monitoring traffic conditions on roadways, dynamic message signs to provide real time travel information, vehicle location systems to track transit and emergency services vehicles, and a host of other technological elements and agency coordination processes.

This Steering Committee was established by the MPO Policy Board on 12/14/20.

*This list will be updated as necessary. Last updated on 3/29/21.
